

Can I Upgrade or Change Class When Rebooking Spirit Airlines?

Everything You Need to Know for 2026

When booking with **Spirit Airlines**, you may find yourself in a situation where you want to upgrade or change your class after rebooking. Whether it's to secure a more comfortable seat, access additional perks, or simply change your travel experience, upgrading or changing classes can enhance your trip. But how does Spirit Airlines handle these changes? In this blog, we will guide you through the process and answer the question, "Can I upgrade or change class when rebooking Spirit Airlines?"

Spirit Airlines Rebooking Policy Overview

First, it's important to understand **Spirit Airlines' rebooking policy**. Spirit, being a **low-cost carrier**, operates on a **no-frills** model, meaning that its fares are often cheaper than many major airlines, but certain features like class upgrades or rebooking flexibility may require additional steps or fees. If you're considering rebooking with Spirit Airlines, you should know that **rebooking** typically allows you to change your flight to a different time or date, but it may also offer options to upgrade to a higher class or different seating category.

Can I Upgrade My Seat When Rebooking?

Spirit Airlines offers **two main seating classes: Standard Seats** and **Big Front Seats**. The Big Front Seat is Spirit's version of a premium seat, offering more legroom and a more comfortable seating experience. When you **rebook your flight**, upgrading to a Big Front Seat is possible, but it depends on availability and the specific flight.

1. Upgrading to Big Front Seat

If you're looking to upgrade to a **Big Front Seat**, the option is available during rebooking, **subject to availability**. You can request an upgrade when you rebook your flight online, through the **Spirit Airlines website** or **mobile app**, or by contacting Spirit's customer service. However, this upgrade is not always guaranteed, especially if Big Front Seats are already sold out for your flight.

Keep in mind that upgrading to a **Big Front Seat** comes with an **additional fee**, which varies depending on your route and flight. If you are willing to pay the extra cost, upgrading during rebooking can offer you more space and comfort during your flight.

UK: +44 800 054 8541
MX: (+52-800-351-0319)

2. Upgrading to a Higher Fare Class

While **Spirit Airlines** primarily offers **Standard Seats**, upgrades to a higher fare class (such as a **Deluxe Fare** or similar premium fare) are **not typically available**. Spirit does not offer traditional premium cabins like First Class or Business Class, so your upgrade options are limited to seat type changes (such as moving to a Big Front Seat).

However, **Spirit Airlines' flight add-ons**—like **Flight Flex**—offer certain perks, such as the ability to **reschedule** your flight, which may be beneficial if you are looking for more flexibility during your travels.

How to Change Class or Seat When Rebooking

If you're rebooking and want to change your seat class, there are a few ways to handle it. Here's how you can upgrade your seating or class when rebooking:

1. **Rebook Online:** Visit the **Spirit Airlines website** or use the **Spirit Airlines mobile app** to manage your booking. After entering your reservation details, look for the option to select a new seat or request an upgrade. You'll be able to view available seats, including Big Front Seats, and choose the one that suits you.
2. **Call Customer Service:** If you prefer talking to someone or need assistance with your upgrade, you can **call Spirit Airlines** customer service. A representative will be able to check availability for upgrades and help you make changes to your reservation.
3. **Check-In and Upgrade at the Airport:** If you're unable to upgrade during rebooking, you may also inquire about upgrades when you check in at the airport. Spirit Airlines sometimes offers **last-minute upgrade options** at the check-in counter or during the boarding process, although availability may be limited.

Additional Upgrade Options with Spirit Airlines

In addition to upgrading your seat to a Big Front Seat, there are other ways to enhance your Spirit Airlines experience:

- **Flight Flex:** By purchasing **Flight Flex** during your booking or rebooking, you gain the ability to change your flight date or time without paying change fees. This can add flexibility to your trip, especially if you need to modify your travel plans.
- **Bundle Deals:** Spirit offers bundles like the **+Bundle or Freedom Fare** which combine multiple services (like seat selection, priority boarding, and more) into one package. While these aren't necessarily class upgrades, they can provide additional benefits that enhance your flying experience.

- **Discount Den Membership:** Spirit offers a **Discount Den** membership, which provides access to discounted fares, **exclusive deals**, and better pricing on seat upgrades. If you travel frequently with Spirit, it might be worth exploring the benefits of becoming a member.

Final Thoughts

While Spirit Airlines does not offer traditional class upgrades such as those available on larger carriers, passengers can still upgrade their seats to the **Big Front Seat** during rebooking. This upgrade provides more comfort and space, especially for longer flights, and is available for an additional cost. Spirit also offers flexibility through add-ons like **Flight Flex** and various bundles, allowing you to customize your flight experience according to your needs.

If you're considering upgrading or changing your seat class when rebooking Spirit Airlines, the key is to act early and ensure availability. Whether you're booking online, using the app, or reaching out to customer service, you can explore options to enhance your flight experience.

For Assistance with Upgrades or Rebooking:

USA: +1 "866" 450 "7394"

UK: +44 800 054 8541
